# Frequently Asked Questions

**Q: Does it make sense for me to trade-in my roller skis?**

A: If your roller skis are several years old or if your wheels need to be replaced soon it's probably worth trading them in. Rundle Sport and Swenor wheels are manufactured by the same supplier, and a set of skate roller ski wheels is [\\$125 from Rundle Sport](#) or [\\$220 from Swenor](#). Many of the trade-in prices are below the Swenor replacement wheel cost and only slightly above the Rundle Sport wheel replacement cost. Cost aside, both roller ski options from Rundle Sport are extremely high performing. This trade-in program is a one-time offer and is capped at 40 trade-ins so take advantage while you can!

**Q: Should I trade-in for Velox Skate, or Flex Skate?**

A: What roller ski model makes most sense for you depends on several factors like age, weight, height, skill level and training load. Our recommendation is to give us a call at 416-559-5309 to find out what model will best suit you.

**Q: Can I get bindings swapped from my old roller ski to my new ones?**

A: Yes! [Greg Christie's Ski and Cycle Works](#) will be able to do binding swaps or install new bindings. Calling ahead for scheduling and pricing is recommended, 819-827-5340.

**Q: What is the warranty on Rundle Sport roller skis?**
